May 5th. 1874  
(Month) (Day) (Year)

7 AGE  
41 yrs. 5 mos. 27 ds.  
If LESS than  
1 day, hrs.  
or min.?

8 OCCUPATION  
(a) Trade, profession, or House Wife  
particular kind of work  
(b) General nature of industry  
business, or establishment in  
which employed (or employer) House Keeping

9 BIRTHPLACE  
(City or town,  
State or foreign country) Mo.,

10 NAME OF  
FATHER Will Hudgin,

11 BIRTHPLACE  
OF FATHER Kentucky,  
(City or town, State or foreign country)

12 MAIDEN NAME  
OF MOTHER Florence Holman, 8

13 BIRTHPLACE  
OF MOTHER Not Known,  
(City or town, State or foreign country)

14 THE ABOVE IS TRUE TO THE BEST OF MY KNOWLEDGE  
(Informant) Geo. W. Harris,

(Address) Cowgill, Mo.,

15 Filed Nov 3, 1915 S. D. Smith  
Registrar

MEDICAL CERTIFICATE OF DEATH		
16 DATE OF DEATH Oct 27, 1915	Nov 2, 1915 (Month) (Day) (Year)	

17 I HEREBY CERTIFY, that I attended deceased from  
that I last saw her alive on Nov 2, 1915  
and that death occurred, on the date stated above, at 6:45 a.m.  
The CAUSE OF DEATH\* was as follows:

Lobar Pneumonia  
of left lung of 10 days  
137A (Duration) yrs. mos. 5 ds.  
CONTRIBUTORY Nephritis  
(Secondary) Not Known  
(Duration) yrs. mos. ds.  
(Signed) S. D. Smith M. D.  
Nov 2, 1915 (Address) Cowgill

\*State the Disease Causing Death, or, in deaths from Violent Causes, state  
(1) Means of Injury; and (2) whether Accidental, Suicidal or Homicidal.

or Recent Residents)

At place of death yrs. mos. ds. In the State yrs. mos. ds.

Where was disease contracted if not at place of death?

Former or usual residence.

19 PLACE OF BURIAL OR REMOVAL Cowgill Cemetery, DATE OF BURIAL  
Nov. 3rd, 1915

20 UNDERTAKER E.P. Michael Deaymer, Mo.  
ADDRESS

# Revised United States Standard Certificate of Death

[Approved by U. S. Census and American Public Health  
Association]

**Statement of occupation.**—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer* or *Planter*, *Physician*, *Compositor*, *Architect*, *Locomotive engineer*, *Civil engineer*, *Stationary fireman*, etc. But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) *Spinner*, (b) *Cotton mill*; (a) *Salesman*, (b) *Grocery*; (a) *Foreman*, (b) *Automobile factory*. The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specification, as *Day laborer*, *Farm laborer*, *Laborer—Coal mine*, etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers* who receive a definite salary), may be entered as *Housewife*, *Housework*, or *At home*, and children, not gainfully employed, as *At school* or *At home*. Care should be taken to report specifically the occupations of persons engaged in domestic service for wages, as *Servant*, *Cook*, *Housemaid*, etc. If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus: *Farmer (retired, 6 yrs.)* For persons who have no occupation whatever, write *None*.

**Statement of cause of death.**—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid pneumonia"); *Lobar pneumonia*; *Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritonaeum*, etc., *Carcinoma*, *Sarcoma*, etc., of ..... (name origin; "Cancer" is less definite; avoid

use of "Tumor" for malignant neoplasms); *Measles*; *Whooping cough*; *Chronic valvular heart disease*; *Chronic interstitial nephritis*, etc. The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles* (disease causing death), *29 ds.*; *Bronchopneumonia* (secondary), *10 ds.* Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility" ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Haemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage, as "PUERPERAL septicaemia," "PUERPERAL peritonitis," etc. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, OR HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning*; *Struck by railway train—accident*; *Revolver wound of head—homicide*; *Poisoned by carbolic acid—probably suicide*. The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis*, *tetanus*) may be stated under the head of "Contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)
